

## Awareness

Look	
All directions, often	<i>Be aware of situations before they approach you.</i>
Look around corners when turning (turn wide)	<i>Don't cut corners short when moving around.</i>
Scan far/near, left/right	
Use peripheral vision	<i>Use your side vision.</i>
Look out for your partner	
Look without "looking"	<i>Avoid staring. Calmly look all around, at everything.</i>
Observe / Take note	<i>Take a mental note of important facts in case you need to report them.</i>

Listen	
To your instincts	<i>If it "feels" unsafe to you, it may be unsafe for others.</i>
For anything unusual	
Wake up / Pay attention	
No headphones	
Avoid phone (exception 311 or 911)	<i>Call 911 covertly if needed. Don't announce it to everyone on the street.</i>
Use all senses	
Ask if unclear	<i>Communicate with your team. Your questions are important.</i>

Know	
"What" to look for	<i>Use good judgement in spotting situations.</i>
The area and streets	<i>Know the street names and cardinal directions (e.g. North, South, etc.)</i>
The laws	
The risks
